**THE REPORT**  
**OF THE**  
**PRESIDENT OF QUEEN'S COLLEGE, BELFAST.**  
**FOR THE**  
**YEAR 1898-99.**

---

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

MAY IT PLEASE YOUR MAJESTY,

I have the honour to present to Your Majesty my annual Report on the condition and progress of Queen's College, Belfast, during the academic year 1898-99. I am happy to be able to say that the College continues to prosecute, with unabated vigour and no small measure of success, the high task committed to it by Your Majesty. I proceed to speak in detail of the various departments of its work.

**LECTURES.**

According to the statutes of the College our First Term commences on the third Tuesday in the month of October in each year, and of late we have endeavoured to begin lectures at the earliest possible date after that day. In point of fact they now commence much sooner than was formerly the case. The Degree Examinations of the Royal University, to which the majority of our students resort, are just concluding towards the end of October, and our own examinations for Matriculation, Scholarships, and Studentships overlap them, and occupy the first week and more of the Term. Notwithstanding, lectures began last autumn on October 18th, so that when the First Term ended at Christmas a very substantial amount of work had been accomplished in the various class-rooms. When it is borne in mind that, since the institution of our Summer Session, certain of our classes continue to meet until towards the end of the month of July, it will be evident that our academic year is not deficient in length, and it is also to be remembered that no small part of the Long Vacation is occupied by professors and students in University Examinations, which to both constitute part of their severest and most trying work.

The attendance of students at lectures has been, I am happy to say, of the most regular and satisfactory character. A short time ago the Council made certain alterations in the requirements regarding attendance, and during the Session now under

review, whether owing to these changes or not, the attendance was the best which we have had for a long time. I have also once more the satisfaction of reporting to Your Majesty that the conduct and demeanour of the students generally was everything that could be desired. No breach of College discipline was brought under the notice of the Council during the year.

#### HONOURS GAINED DURING THE YEAR.

The assiduity with which the studies of the College were prosecuted during the year is illustrated by the list of successful competitors for our Studentships, Scholarships, and Prizes, for the Degrees and Honours of the Royal University, the University of Oxford, and the University of Cambridge and at the various examinations of the Temple and King's Inns, which will be found appended to this Report.

At our own examinations the competition was, as usual, keen and vigorous. We always note with interest the Ulster schools whose pupils distinguish themselves at our examinations for Entrance Scholarships in Arts, for we recognise the dependence of the College upon the schools. The first place in the list of Literary Scholars last autumn was gained by Mr. Phineas McKee, of the Royal Academical Institution, Belfast; and the first place in the list of Science Scholars by Mr. William Hawthorne, of the Upper Sullivan School, Holywood. Scholarships were also won by pupils of the Methodist College, Belfast; the Academical Institution, Coleraine; and the Intermediate School, Moneymore. The lists were notable from the fact that the very unusual number of three gentlemen gained double Scholarships, viz. :— Mr. Phineas McKee and Mr. Edward James Hagan, of the Royal Academical Institution, Belfast, and Mr. Robert Martin Houston, of the Academical Institution, Coleraine. Another significant feature of our Scholarship Examinations last Session was the number of young ladies who took high places at them. Miss Sarah Robena Beatty Smiley succeeded in gaining second place on the list of First Year Literary Scholars; Miss Margaret Stouppe won a Second Year Literary Scholarship, and Miss Mary Elizabeth Clements a Second Year Scholarship in Law. In the Class Prize Lists I was also glad to see the names of several young ladies occupying honourable positions. The alteration recently introduced into our Statutes, which gives to women exactly the same privileges as men in the competitions for Scholarships and other prizes, was evidently not made in vain.

At the various examinations outside our own walls at which our students competed, many of them acquitted themselves with signal success. Full lists of these will be found in the Appendix; here I can only refer to them in the briefest and most general manner. At the Summer Examinations of the Royal University last year this College topped the Honours List with a total of 64 honours and exhibitions (viz., 18 first honours, 28 second, and 18 exhibitions), being first by a long way among all the colleges of Ireland. (I exclude of course in this statement

honours gained at Matriculation). At the Autumn Examinations of the same University the results were not dissimilar in point of numbers, and they included such signal distinctions as the Junior Fellowship in Mathematical Science gained by Mr. W. A. Houston, the University Studentship in Ancient Classics won by Mr. R. M. Henry, and the Medical Studentship gained by Dr. Thomas Houston—a truly remarkable trinity of honours. At the Spring Medical Examinations of the present year the Belfast students carried off all the honours and exhibitions which were awarded, with one exception, including a First Class Exhibition with the Degree of M.B., which was gained by Mr. J. W. D. Megaw. An unbroken record such as this requires no comment. It is as honourable to the professors as to the students.

At other seats of learning the results during the year have been much the same. At King's Inns ten candidates entered for the highest honour open to students for the Irish Bar—the John Brooke Scholarship. It was gained by Mr. Robert Spencer Park, this being the seventh occasion in eight years on which an *alumnus* of this College carried off this coveted prize. While the first place at the Irish Law Examinations was thus won by a Belfastman, it is significant that the corresponding place in England was also taken by another of our students—Mr. W. J. Purvis—who gained the Studentship of the Council of Legal Education. Only a few of the other notable positions achieved during the year can I mention. Mr. J. G. Leatham, a Fellow of St. John's College, Cambridge, was appointed Lecturer in Mathematics in that College. Mr. A. Fraser Everett gained at New College, Oxford, the History Exhibition of £50 per annum tenable during residence, and in the Final Honours School of Jurisprudence of the University of Oxford Mr. J. Stewart Wallace was awarded First Class Honours. Mr. Benjamin Moore, the first student whom we nominated eight years ago to one of the newly instituted Research Scholarships established by Her Majesty's Commissioners of the Exhibition of 1851, has been appointed Professor of Physiology in Yale University. Dr. William Hanna has been appointed by the Government Special Plague Medical Officer in Madras, and more recently has been transferred, at the request of the Government of Bombay, to the Government Laboratory in Bombay. Mr. T. R. Collier has been appointed to the Principalship of the Royal Academy, Belfast, and Mr. James Cowan to that of Lurgan College. And while this Report is passing through the press I learn with sincere pleasure that Mr. J. Sinclair Baxter has gained by competitive examination the Reid Professorship of Constitutional and Criminal Law in the University of Dublin, while the candidate who took second place at the examination, also one of our *alumni*, Mr. R. R. McCutcheon, made such distinguished answering that he was awarded a special prize of £40.

During the year we had the pleasure of nominating Mr. William Caldwell, B.A., to a Research Scholarship of Her Majesty's Commissioners of the Exhibition of 1851; Dr. Henry Stewart Anderson to a commission in the Royal Army Medical Corps; and Dr. H. Norman Barnett and Dr. Alexander E. Knight to Civil Surgeonships in attendance on Her Majesty's troops.

## THE CHAIR OF ENGLISH LAW.

In December last, to the general regret of the entire College, Professor James Andrew Strahan found it necessary, owing to the increase of his professional work in London, to place in my hands his resignation of the Chair of English Law, which he had held for thirteen years, having been appointed by Your Majesty in 1886. During all that time our Law School enjoyed very gratifying prosperity and achieved singular success, as my annual reports have testified from year to year, and of this success Mr. Strahan might truly say—*pars magna fui*. Not only, moreover, did he devote himself with conspicuous ability and unflagging zeal to the work of his Chair, but he also threw his energies into the entire life of the College, and was always one of the foremost in assisting every movement for the advancement of its interests. Along with Sir Wm. MacCormac, President of the Royal College of Surgeons, he was one of the founders of the "Association of Old Belfastmen, London," which has done and continues to do so much for the promotion of a very desirable *esprit de corps* among former students of the College resident in England. He was also one of the earliest and warmest friends of our Union, which has proved such a valuable factor in promoting the comfort and well-being of the students, and in many other ways he uniformly exhibited a deep interest in the welfare of his *Alma Mater* and a laudable energy in advancing it. On his retirement his friends and former pupils testified their regard for him and their sincere regret at his departure by entertaining him at a public dinner in Belfast.

The Chair left vacant by the retirement of Professor Strahan was conferred by Your Majesty on Mr. W. Newell Watts, LL.D., an *alumnus* and ex-Scholar of the College like his predecessor, a brilliant honourman of the Middle Temple and King's Inns, and a member both of the Irish and English Bars.

## NEW DEPARTMENT.

Last year we received a communication from the Secretary of State for the Colonies (the Right Hon. Joseph Chamberlain, M.P.), suggesting for our consideration the advisability of establishing a special department for giving instruction in the diseases of tropical countries to such students of medicine as contemplated entering the colonial service of the State. After careful consideration and inquiry, the College Council came to the conclusion that it was our duty to do everything in our power to further an object so laudable, and accordingly an application was made to His Excellency the Lord Lieutenant of Ireland for permission to appoint a Lecturer on Tropical Diseases. Our request was granted, and we hope that in the near future this new Lectureship will be in operation. In addition to serving the special purpose primarily intended to be met by its establishment, it will have the additional advantage of affording to such of our students as intend becoming Medical Missionaries an opportunity of familiarising themselves with the diagnosis and recognised treat-

ment of tropical diseases, and already a large proportion of the ladies and gentlemen who are studying medicine here, with the view of becoming foreign missionaries, have expressed their intention of taking advantage of the proposed lectures. This new department is the sixth which has been established in the College within the last seven years.

#### THE WORK OF THE DEANS OF RESIDENCES.

I have received the following reports from the Deans of Residences, whose disinterested and self-denying attention to the moral and religious welfare of the students belonging to their respective communions is deserving of hearty recognition. I give the reports in the order of seniority of the Deans :—

“ St. Andrew's Rectory,  
“ University Square,  
“ Belfast, June 5, 1899.

“ DEAR MR. PRESIDENT,—I have much pleasure in presenting my report, as Church Dean of Residences, for the past Session. In general, I may remark that the progress of the students in their habits and deportment is most gratifying. There is a tone amongst them that cannot but be pleasing to all lovers of their well-being. Very much of this is due to the work of the Christian Union, which has been earnestly and successfully carried out throughout the Session. In December last the Session was inaugurated by a social meeting of the students, carried out by the Union, with the help and supervision of the Deans of Residences. Then followed meetings, such as Bible Circles, missionary meetings, lady members' religious meetings, and the like. The result has been a stimulus to the study of spiritual truths, faith, and life, which has manifested itself in the progress above referred to. I have therefore once again to say that the conduct of the students has been most exemplary.

“ I remain, dear Mr. President,

“ Your faithful Servant,

“ S. EDWARD BUSBY, *Clk., M.A., LL.D., F.C.D.,*

“ Dean (I.C.), *Q.C.B.*

“ The Rev. the President, *D.D.,*

“ Queen's College, Belfast.”

---

“ College Park, Belfast,

“ 13th June, 1899.

“ DEAR SIR,—I have had but little opportunity of meeting with the students of Queen's College during the Session, owing chiefly to the difficulty of arranging for a stated hour of meeting in the College. At the beginning of the Session I saw many of them at a social meeting in connexion with the College Christian Union, to which all the students of the first year were personally invited.

"The College Christian Union has this Session seventy-five members, and meetings for prayer and for the study of the Bible have been held regularly by the students during the Session.

"As far as known to me, the conduct and character of all the students belonging to the Presbyterian Church have been exceedingly good; and many of them are earnest Christian men, who exercise a healthy religious and moral influence in the College.

"I am,

"Yours faithfully,

"MATTHEW LEITCH,

"Dean of Residences for Students belonging  
"to the Presbyterian Church."

---

"Methodist College, Belfast,  
"12th June, 1899.

"DEAR MR. PRESIDENT,—I have reason to believe that the students under my care, as Methodist Dean of Residences, have conducted themselves in every respect without reproach.

"Yours very truly,

"WM. NICHOLAS, D.D.

"To the President,  
"Queen's College, Belfast."

---

"Adelaide Park, Belfast,  
"June 1, 1899.

"DEAR SIR,—It gives me pleasure to say that I can report favourably of the students who have been under my care during the past Session of the College.

"Yours faithfully,

"DOUGLAS WALMSLEY.

"To the President,  
"Queen's College, Belfast."

#### THE COLLEGE BUILDINGS

have not only been well maintained during the year, but several important structural improvements have been carried out. Some of these are elsewhere referred to, and, amongst others, I may mention that the Entrance Hall has been paved with marble and effectively heated by means of radiators; the North Cloister has been flagged; a convenient Ladies' Room has been provided and fitted up, and important improvements in the lighting and heating of several of the rooms in the Anatomical Department have been carried out.

## THE COLLEGE LIBRARY.

During the year the Library Committee, consisting of Professors Dougan, Morton, Park, Cunningham, Symington, Thompson, Cuning, Byers, the Librarian (Dr. Meissner), and myself, met regularly, and did much useful work. Mr. William Rapple was appointed Assistant Librarian, in the room of Mr. William Taylor, whose resignation (after nearly twenty years' faithful service), I regretfully reported last year, and who has since died. The daily closing hour of the Library was altered to 4 o'clock p.m., instead of 3, on Mondays, Tuesdays, Wednesdays, Thursdays, and Fridays, and 1 o'clock on Saturdays, instead of 12. The close season was also much abbreviated. These changes will, I feel sure, contribute to the convenience and advantage of readers.

The number of works added to the Library, during the year, was 757—viz, 484 volumes and 273 other publications. Most of these were purchased, but for a considerable number we were indebted to the thoughtful kindness of *alumni* and other friends. The donations will be found fully acknowledged in an Appendix to this Report. The Library is now estimated to contain about 55,000 volumes.

## THE MUSEUMS.

The various Museums were sedulously cared for during the year.

The capacity of the Natural History Museum was considerably increased by the erection of a new gallery, fitted with wall cases. Much-needed accommodation has, in this way, been afforded for specimens hitherto either unexhibited, or crowded miscellaneously together. Several important presentations were made to this Museum. Among these may be mentioned one by Mr. Henry Hanna, M.A., B.Sc., a former student of the College who is now Demonstrator of Botany and Palaeontology in the Royal College of Science, Dublin, and who contributed through Professor Cunningham a collection of interesting botanical specimens. Various other additions were obtained by purchase.

The onerous but important work of re-arranging and cataloguing the Medical Museum, to which I referred in last year's Report, has made further progress during the year under the zealous supervision of the Curator, Professor Symington, and with the valuable and willing assistance of several young medical men and a lady medical student. Several useful type-collections of fractures, &c. are being formed, and additional cases and shelving are being provided. The Council showed their sense of the value of the work which is being done by making during the winter a special grant of £50 towards the further equipment of this Museum, which, I am informed, contains one of the most complete collections to be found in the Kingdom. It has received many valuable donations, which will be found duly acknowledged in the Appendix, and for which we heartily thank the donors.

In my last Report I had the pleasure of announcing a kindly and unsolicited donation of £20 which I had received from "Two Friends," for the purpose of commencing a fund for the establishment of a Museum of Hygiene or Sanitary Science. Referring to it I said, "Such an institution will, when opened, not only prove most valuable to the Department of Sanitary Science, which Dr. Letts and Dr. Whitaker are assiduously labouring to develop, but will, I hope, render essential service to the health of the entire community in which our lot is cast." I am now happy to report that this new Museum is an accomplished fact. A large room has been provided for receiving its exhibits, and this is being fitted up for their accommodation. Not a few valuable donations of specimens and models (a full list of which, with the names of their donors, will be given later on), have been contributed to it by gentlemen who recognise the value and usefulness of such a Museum, and some important purchases have been made. It is only right that I should add that the inception and success of this Museum are largely due to the enlightened zeal and untiring energy of Dr. Henry O'Neill, of this city, who has spared no pains and grudges no time to its establishment and equipment. The Council has appointed him Honorary Curator of the Museum, which will always be associated with his name, and which, as years roll on, will, I trust, be found of increasing value to the College and the city. I sincerely hope that it will continue to receive the practical sympathy and help of the public. From the same "Two Friends" I have received a further generous and unasked donation, to form the nucleus of a fund for adding to the equipment of the various scientific departments of the College. All of these are in deep need of such kindly and considerate help, as the funds at our disposal for the purchase of apparatus, &c., are very far from sufficient, and it is unnecessary for me to say that I should be sincerely glad if other thoughtful friends of education would follow the excellent example thus set.

#### THE UNION.

The Union has had, I am glad to say, another prosperous and useful Session, and continues to fulfil the high promise of its early days. Its reading rooms, debating hall, dining room, and recreation rooms are largely frequented by graduates and undergraduates. Last winter a library was established, for which handsome and capacious book-cases have been provided. These already contain a considerable number of volumes, and I hope the collection will be increased by many donations, in addition to such books as may be purchased. I have received and read with interest the annual report and statement of accounts of the Union, issued by its Committee, and I am glad to know that last winter showed a pleasant addition to the roll of membership, and that its affairs continue to be managed with commendable ability and success. Open, as the Union is, to all *alumni* and students of the College, at a very small fee, and affording, as it does, most valuable advantages, I trust that not only will students in actual attendance seek to connect themselves with it, but that

more and more of our graduates will associate themselves by means of it with the present generation of college men. Mr. J. R. Gillespie, M.A., was President during last Session. Mr. John M'Crea, B.A., has been elected his successor.

I cannot pass from the subject of the Union without referring to a presentation which was made last winter to its accomplished architect, Mr. Robert Cochrane, F.R.L.B.A., F.S.A., to whose skill and labour its buildings owe their beauty and commodiousness. The Executive Committee felt that they could not allow their very pleasant connection with him to come to an end without, in some tangible form, expressing their sense of the valuable services which he had rendered to the Union without fee or reward, not only by the admirable plans which he prepared for the building, and the unremitting attention which he gave to its erection, but for the sympathetic interest which he took in the project from its inception. Accordingly, they asked and obtained permission to present him with a drawingroom clock, suitably inscribed, and this, in accordance with his wishes, was handed to him without any public formality, along with a letter expressive of their feelings. The pleasure of our connection with Mr. Cochrane was increased by our knowledge that he is an old Queensman, a fact which doubtless contributed to his hearty interest in the establishment of the Union. I must add that the entire College has benefited materially by his appointment to the Surveyorship of the Northern District of Ireland, in which the College is situated, and of whose buildings he is therefore in charge. We owe much to the wise care and active interest of the Board of Works, who have the good fortune to have him as one of their chief officers, and I feel it due alike to them and to him to make this public acknowledgment of our obligations.

#### THE COLLEGE SOCIETIES.

The several College Societies, which the students have formed amongst themselves for their improvement and pleasure, held most of their meetings during the Session, some of which were of more than ordinary interest, in the M'Mordie Hall of the Union. At the opening meeting of the Literary and Scientific Society, which has now completed the fiftieth year of its history, the new President (Mr. G. R. Reid, B.A.) read his inaugural paper, and the Lord Chief Justice of Ireland (Sir Peter O'Brien, Bart.), delivered a much appreciated address. At another of its meetings Mr. F. R. Benson favoured the members with a very interesting lecture on "Art and Athletics," and at a third, the Right Hon. Horace Plunkett, M.P. discussed, with characteristic force and lucidity, the development of the material resources of Ireland, a subject which he has made so thoroughly his own, and in connection with which he has rendered such undoubted and valuable service to the country. In addition to these public assemblages of the Society there was the usual full complement of private meetings, at which the members debated various subjects among themselves. The Medical Students' Association

had also a prosperous and useful session under the presidency of Mr. W. A. Rice, B.A. Various topics of professional interest were discussed at its meetings.

I have thus endeavoured to tell the round unvarnished tale of the history of the College during the academic year now completed. Full statistics will be found in the Appendix to this Report, in which I have placed lists of the Visitors and other Officials of the College, together with a series of tables showing (1) the Number of Students matriculated in the Session 1898-99; (2) the Numbers and Religious Persuasions of the Students who have entered in each year since the opening of the College, and the Numbers and Religious Persuasions of the Students who have attended in each year; (3) the Numbers attending in each Faculty during the Session now ended; (4) the Number of Students who came to the College from each of the provinces of Ireland, and from other places, during the Session; (5) the Ages of the Students in attendance; (6) the Number of Lectures given by each Professor during the Session, and the Number of Students attending each Class; (7) the names of the College Scholars and Prizemen for last Session; (8) a list of Degrees, Diplomas, and Honours obtained by Students of the College at the Examinations of the Royal University of Ireland in 1898; (9) a list of sundry Students who have obtained distinctions in Universities other than the Royal University of Ireland; (10) a Table showing the Length of Service, Salaries, and other Emoluments of the Professors and Officers of the College; (11) a list of the Benefactors of the College since its foundation, with an account of their Benefactions; and (12) an account of the Receipts and Expenditure of the College during the year ending 31st March, 1899.

All which is testified on behalf of the College by

Your Majesty's

Most dutiful servant,

THOMAS HAMILTON,

PRESIDENT.

July, 1899.
